

Eye Lash Extension FAQs

What are eyelash Extensions?

Single synthetic lashes that are attached to each of your individual eyelashes, one at a time, with a minute amount of special long-lasting adhesive. If correctly applied, they are practically undetectable to you or anyone else. They will add length, thickness, and fullness that can't be achieved with traditional makeup.

How long do They last?

Extensions are an ongoing service. They must be "Refilled" every 2 to 5 weeks depending on many factors including your lifestyle, skin type, etc. At the Refill service, the technician will remove (Not trim) any lashes that have grown out or become loose with a special Adhesive remover. new extensions will also be applied until the eyelashes are full and complete. They do require some maintenance and aftercare instructions must be followed for best results.

How Long does it take to apply a full set of Extensions?

A nice full application o will take anywhere from 1 1/2 to 3 or more hours depending on your technician's skill level and experience. This is a very tedious, time consuming procedure if done correctly.

How many extensions are applied on each eye?

At least 30 to 60 or more extensions per eye. The result is long, beautiful and natural looking, lush eyelashes. Remember that you are limited to the number of natural eyelashes available that extensions can attach to. Even sparse eyelashes will be greatly enhance.

Do they Hurt?

No. If correctly applied, the products do not contact your skin and you won't even notice that you are wearing them. The application procedure is painless; they are not "woven" in and there are no punctures in the skin.

How can I make them last longer?

Review the aftercare instructions and use the recommended aftercare products. Do not use any oil containing cleansers or waterproof mascara. (I do not recommend using any mascara.)

Will they make my own lashes fall out?

Not if the eyelash extensions are applied correctly, but your natural lashes do shed every 30 to 120 days. Incorrect application can increase shedding and loss.

Can I swim with extensions?

Most people will be able to swim and enjoy water activities. Swimming can shorten the life of extensions for some people. Everyone is different. Showering with hot water can also affect the extensions.

Will extensions make my lashes look thicker?

Your existing eyelashes will appear thicker but you are limited to the number of eyelashes that you have.

I do not have eyelashes. Can I get Extensions?

NO. The extensions must have hairs to adhere to,

Can I wear mascara with extensions

One of the biggest benefits of extension is that you'll no longer need mascara! However there is special mascara to use with the extensions.
